How would you cope with a serious illness? Including HIV!

Serious illnesses are affecting increasing numbers of young men and women. In the twenty first century conditions such as **heart attack, heart valve surgery, cancer and multiple sclerosis** just to name a few are more common than ever. Huge advances in medical technology mean that although cases of such illnesses are on the increase, so too are the number of recoveries made.

From as little as £40 per month a cash lump sum can be paid out on death, or the diagnosis of a serious illness.

Serious illnesses covered could include

- Alzheimer's Disease
